

GIVE YOUR INSPIRE 1 OR 2 NEW LIFE!

-  Fully integrated with Inspire 1 and 2
-  No new batteries needed

No need to retire your perfectly good Inspire because you can't get batteries. With the Blue Vigil RS1000, your Inspire can become a dedicated tethered system. Adapters for M200/M210 and M300 also available.

The RS1000 tether system enables virtually unlimited hover time. Just connect the base to a generator, household power, or a vehicle inverter (capable of minimum 1000 W sustained/1500 W peak).

The Blue Vigil system is in use at 100s of agencies and is the best tether value on the market today. Contact an authorized Blue Vigil dealer today for special pricing for a complete tether package for an Inspire aircraft.
